In mammals, the zona pellucida glycoprotein 3 (ZP3) is considered a primary sperm receptor of the oocyte and is hypothesized to be involved in reproductive isolation. We investigated patterns of diversity and selection in the putative sperm-binding region (pSBR) of mouse ZP3 across Cricetidae and Murinae, two hyperdiverse taxonomic groups within muroid rodents. In murines, the pSBR is fairly ...

Developing countries need far greater access to already available as well as near-term vaccine supplies. Rich countries – including the US and Australia – have begun sharing more vaccine doses. That's commendable, but there is a lot more worth doing in recognition of the world's common interest in beating the pandemic.
