Mazda's hydrogen rotary engine, based on our unique rotary engine technology but adapted to use hydrogen as its fuel, emits no CO2 and offers superb environmental performance. Because the rotary engine required only a few design changes to allow it to operate on hydrogen, Mazda was able to build hydrogen-fueled rotary engine vehicles at low cost.

Premacy is cheap because of its good performance, and I liked the design, so I narrowed down the search to Premacy. Originally I was looking for a used light car. However, because a used ordinary car is cheaper, the exterior is beautiful for the price, snow tires are included, and because it was a model that I had been riding before, I can drive with confidence We decided on this property.
