How To Repair A Broken Car Antenna -EricTheCarGuy

FIRST, A sharp putty knife (hard plastic) is what I used (owned that type of antenna for 20 years), to remove the mount. Heat is a good idea. Once used a metal putty knife, below freezing (outdoors), on a very well installed mount. BTW, Rear View mirrors, in your car interior, are attached by similiar method.

Removal of glass mount antenna | QRZ Forums

Removing the inner fenderwell allows access to remove the cable from the antenna. The other steps (from above) are to use a small wrench to remove the antenna mast. Cover the perimeter of the fender around the antenna trim cap with a rag and/or tape then pry the trim cap up. Remove the 3 retaining screws that secure the base to the fender.

F150 Antenna Mount Replacement - DoItYourself.com ...

The antenna clips were a little hard to get off. now push the rubber grommet to the fender wheel. Unscrew the antenna base (10 mm) and drop the antenna base out. Leave the bezel in place (rubber part on the exterior of the fender) Pull the wiring out into the fender wheel and reverse the process. Mine is a 2015 4x4 double cab.
