Rock art has been produced in Europe since the Upper Palaeolithic period through to recent centuries. It is found in all of the major regions of the continent. One of the most famous examples of parietal art is the Grotte Chauvet in France. The cultural purpose of these remnants of the Paleolithic and other periods of prehistoric art is not known. However, some theories suggest that, because ...

With that in mind, experts believe that the earliest recorded rock art is the Bhimbetka petroglyphs - a series of 10 cupules and an engraving, which were uncovered during the 1990s in a quartzite rock shelter at Bhimbetka in central India. These markings date from at least 290,000 BCE but are likely to be much older (c.700,000 BCE or earlier).
