Vz Commodore V6 Alloytec Engine
Released in August 2004, the VZ series was a minor facelift of the previous VY series that featured a new V6 engine in different tune guises. The powerplants included 175 and 190 kW (235 and 255 hp), 3.6-litre Alloytec V6 engines in place of the older 3.8-litre Ecotec V6.Other changes to the V6 was the loss of the supercharger that was included in the S models from the VT to VY, this was also ...

Holden Commodore (VZ) - Wikipedia
Initially marketed as the 'Alloytec 175' for the Holden VZ range, the LE0 engine produced 175kW at 6000rpm and 320Nm at 2800rpm. Significantly, however, 90 per cent of peak torque available from 1630 rpm to 5460 rpm. Maximum engine speed for the LE0 was 6100rpm. Power and torque outputs for the LE0 engine are given in the table below.

Holden LE0 Alloytec V6 engine - AustralianCar.Reviews
Note - Dyno graph depicts power output at the wheels in Horsepower. Equivalent engine power is approx. 205kw (Automatic Transmission 175kW Executive VZ). This product is a performance tune to suit the Holden VZ 3.6L V6 series of cars including Commodore and Calais models fitted with both standard (175kW) and high output (190kW).

The main differences between these engines were that the LE0 engine did not have variable exhaust camshaft phasing and, for the VZ/WL models, a variable intake manifold. Whereas the LE0 engine was used in the entry-level VZ and VE Commodore -based models, the LY7 was reserved for the sports or premium models such as the Commodore SV6, Calais, Statesman and Caprice.
